WESTERN MEXICO SHIPPING SUGAR TO SAN FRANCISCO

MAN FRANCISCO, May 17.—(U.P.)—
A \$3—the prevailing high price
of sugar in the United States—is
attracting sugar in large quantities
from western Mexico to San Francisco,
according to Victor Palau, a Spanish
Mexican merchant now in
business in that Francisco, who re-
ports that several thousand bags
have arrived here recently by
steamship from the state of Nacala
and Durango. This is the first time
in several years, but there has
been sugar exported to California.
Among those cases, Palau said,
are an adhesion of the water
rights on one of the tributaries of
the Río Grande river in northern
California, involving nearly 1,000
acres, and the appeal of the
Yuma County Water Users' Asso-
ciation from the decision of United
States Judge W. H. Matthews of
Arizona in a suit for a reduction
of \$2,000,000 in the Yuma project
charges.

PHOENIX RUPERT, B.C., May 17.— By A. P.—"Buddy" Belmont well known prospector who after many years months of search discovered the valuable silver property of the Spanish group at Alice Arm, has disappeared.

Rupert is a Spaniard, young,
short and swarthy. Long before
Alice Arm blossomed forth as a
silver camp, his unbounded faith in the district kept him pro-
pecting through the hills. Finally,

he struck a rich vein.

The owner of this property has
been mining the ore. He was
dealt away after a prolonged illness
from influenza. Stuck in
a tent at the Spanish Group, he
is still as much larger than
that of last year that considerable
attention in the United States is
expected this year, he said.

200 BUSES PARKED

"The Fourth Ace," Is a Screaming Force

The low altitude of a biplane
and his hunger for the flavor of a
new Pennsylvania ham, caused
"The Fourth Ace," which will
be shown at the Orpheum Theatre
tonight, Chester Gaskins, after
one of a Marconi pilot, when a
fearless young flier roared into
a railroad糸house, forgot all
about his beloved Texas Fazenda,
which keeps the general store,
and turned his attention to the new
treaty.

But there is a strong argument
in Lester's favor. While Chester
had this for breakfast, he had
a sandwich and on the credit side
was a balance of \$1000. When
it he had only \$1000 worth. But
it remained for his ally, helper
his friend, to find this out, and
he had no time to call the other
cheater.

After some of the familiar scenes
that have ever been scripted for
the audience, when the man who
turns up there with the desire
to shoot to be shot, especially
when that would have to sacrifice
a fat lambkin.

At the Orpheum tonight.

200 ACRES COTTON PLANTED IN CO. ADDING ARTEMISIA

ARTENISIA, N. M., May 18.—The
cotton crop in this vicinity, which
was planted from two to three
weeks ago has come up nicely
with an even stand although the
plants show the effect of their
color of the unusually cool nights
of the last two weeks.

The amount of seed sold by the
seedsmen here divided by the num-
ber of pounds usually planted per
acre indicates an average slightly
above 1000 tributary to this place.
The machinery for a gin is in
storage here.

While several good crops of cotton
have been raised a little way
to the south of Artemisia cotton culture
throughout the community is
an experiment. Should the result
be satisfactory, next season's acre
area will be increased to an extent
that three gins will be required to
handle the crop of the middle
valley.

NUEVA MEXICO MINISTER GETS \$300 A YEAR; ANOTHER \$420

(By Associated Press.)
ALBUQUERQUE, N.M., May 17.—
For ministers to New Mexico, according
to statistics made public
after a canvas of the state, the
maximum salary is \$4000 a
year and a parsonate free while
the lowest is \$400 annually, the
recipient paying his own rent.
The average salary of all
ministers is \$600 annually.

The man who receives \$420 a
year is reported to be a college
graduate, an excellent preacher
and an untiring worker. He also
keeps a living for himself and family
by making window advertisements.

FOUND LUMP OF GOLD FOUND IN BELGIAN CONGO

LONDON, England, May 18.—(By
Associated Press.)—A lump of pure
gold weighing just over twelve
pounds, one of the largest nuggets
ever found, has been discovered in
the Kilo State Mine in the north-
western district of the Belgian
Congo, according to the African
World. It is said to be a portion of
the London branch of the Bantam
Bank and will be sold to
agents of the Belgian government.
